Stage 4 Feedback

Well, you know the project has troubles, but let's see where you are. Seems like you have some components mapped out but not yet showing up.

Refactoring into Components (5/30)

Starting to build react components! -20 compnents not functional. -5 Not using routes.

Tracking application state (0/30)

-15 State not tracked -- using const instead in one case. -15 No component appears to be passing state up.

React version of libraries (0/30)

Not using react libraries.

Deployment and Submission (5/10)

-5 default react Readme Both links submitted -- check!
